1. Purpose of the document:

This is **not** a project plan. It is a guide for system architecture and development, not for phasing, timelines or deliverables.

This document is divided into three sections:

- Project Overview
- Information Architecture
- Site Design

2. Project Overview:

2.1 Audience:

This document is intended as a complete guide for ESS-User in using OrangeHRM

3.0. This document is specially designed for non-specialists; specialists may find the document a useful point of reference. By reading this guide, you will learn how to use OrangeHRM through the elements of the graphical user interface and what's behind some of the advanced features that are not always obvious at first sight. It will hopefully guide you around some common problems that frequently appear for users of OrangeHRM.

2.2 Hardware and Hosting:

OrangeHRM's servers will be hosted at X company's site.

OrangeHRM will be hosted on two servers: One to host the actual website and (language)code, and the other to host the (database name) database.

3. Information Architecture

Log in to the OrangeHRM System using your ESS-User account that has been created by the HR Admin as shown in Figure 1.0.

3.1 My info Module

My Info Module is a powerful tool providing employees of the company with the ability to view relevant information such as personal information and updating personal information with an internet enabled PC without having to involve the HR department.

The functionality of this module spans through the entire system, making information available anywhere, anytime. All information is subject to company's defined security policy, where he/she can only view the information he/she is authorized to. An ESS-User can only edit certain fields in the ESS Module, maintaining the security and confidentiality of employee information.

3.1.1 My Info Module

When an ESS-User logs into the system for the first time, the first thing they will see is the "Personal Details" screen as shown in Figure 1.1. They are able to edit and enter certain fields.

Figure1.1:

4. Site Design

4.1 Aesthetic/HTML Requirements and Guidelines

OrangeHRM must deliver a compelling visitor experience. However, it cannot sacrifice usability and accessibility.

The web site ‘look’ must conform to the following requirements:

- The site should be HTML 4.0 compliant.
- All pages must download in less than 10 seconds over a 56k modem connection. - Performance requirement
- All pages must fit in a web browser displayed on a computer set to 640 x 480 pixels.
- All pages must use a web safe color palette.
- The site must be compatible with Internet Explorer 4, 5 and 5.5, and with Firefox 4-6, as well as Google Chrome 4.0 and later.
- All site pages should be available for search engine robots.
- All pages that use static images should be displayed correctly.

5. Sign-Off Document

The following parties have read and agree with this Requirements Definition document for the OrangeHRM application account module functionality.

After approval of this Requirements Definition phase, any significant changes in the scope of this project will require validation of existing project costs and schedules.
